1. Claims 1-12 are allowed. Claims 1, 3 and 8 are independent.
2. Applicant is reminded of improper claim of foreign priority filed with the Combined Declaration and Power of Attorney on August 27, 2001. The priority form has an "x" placed under "No". Please refer to M.P.E.P. 201.11, page 200-66, section f, and also Rule 1.78(a) for information on filing a petition and fee to properly claiming foreign priority (or for delayed claiming of foreign priority).

3. The following is an examiner's statement of reasons for allowance:

Claim 1 has been amended such that **the period** of the fast driving sequence in the providing step **is less than** the driving sequence according to which the plurality of charge signals detected by the charge-coupled device are sequentially sent to the pixel processor. The claimed method comprising the providing, the sending and the sampling steps in combination with other limitations of claim 1 is not taught by the prior art of record.

Claim 2 depends on claim 1.

New claims 3 and 8 claim a method and an apparatus, respectively, corresponding to each other. Similarly to the reason given for claim 1, the prior art of record does not teach "decreasing a period of the driving sequence", in combination with other limitations of any of claims 3 and 8.

Claims 4-7 depend on claim 3. Claims 9-12 depend on claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
